

**4X4 ACCESSORIES**

## New Product Notification

Date: 19.02.10

Description: Deluxe Winch & Non-winch Bull Bars

Application: Toyota Prado 150 Series including SX, ZR, GX, GXL, VX & Kakadu models

Part No. & Price: 3421450 / \$1645.00, 3221450 / \$1565.00, 3421470 / \$TBA

With the addition of forward facing camera, parking sensors and HID head lights to various models in the Prado 150 range, our engineers were faced with a number of new challenges. Some of these new features such as the parking sensors were able to be successfully incorporated into the design, however features like the forward facing camera have been limited by the addition of accessories such as driving lights and winches. For more information and ARB's recommendations, please refer carefully to the application chart on page 3 and be sure that any potential customers are aware of the considerations required in choosing a suitable Bull Bar

## 4X4 ACCESSORIES

### FEATURES:

- Clean design with protection to lower front vehicle components by specific wing panels and stone tray
- Excellent approach angle of 31 Degrees (when fitted in conjunction with OME suspension)
- Winch and non winch capability, designed to suit WARN M8000, XD9000, 9500XDC & 9.5 XP & Magnum 9000 winches
- Accepts 108, 808, 800 & 900 Series IPF driving lights
- Mounting system fully redesigned from ground up and tested to suit vehicle crush curve. Mount brackets are independent and adjustable. Mounting position of bar is higher than previous providing maximum approach angle benefit. Bracing system is provided to the winch mount bracket for full bar stability when winching.
- CB aerial brackets on centre top tube
- 2 x HiLift jacking points in centre pan
- Provision for optional ARB Fog Light kit P/No 6821201
- Access provided to O.E. tow points
- Front parking sensor holes are cut in the front face of bull bar for the VX, Kakadu and ZR specific vehicles. These sensor holes are strategically shaped and positioned along with internal access holes to provide routing across the front inside of the bar to suit the OE sensor loom.
- Headlamp washer system is functional with bull bar
- Dedicated winch and non winch deluxe bars are available for GX, SX and GXL vehicles without front parking sensors

**IMPORTANT NOTE:** Please read application chart for disclaimers and ARB suggestions for applicable bars to suit vehicle range

Aerial tabs are mounted inboard of uprights

Optional ARB Fog Lights and parking sensor provision (specific models)

4X4 ACCESSORIES

## Toyota LANDCRUISER PRADO 150 Bull Bars

Part No's: 3221450, 3421450, 3421470, 3921450, 3921460

Bull Bar Part No	Description	PRADO 150 Vehicle Models					
		3 DOOR		5 DOOR			
		SX	ZR	GX	GXL	VX	Kakadu
3221450	Deluxe Non Winch	•		•	•		
3421450	Deluxe Winch	•		•	•		
3421470	Deluxe Comb, Sensor Holes		•			•	•
3921450	Sahara Comb	•		•	•		
3921460	Sahara Comb, Sensor Holes		•			•	•

Due to the unique inboard positioning of the low beam headlamps on this vehicle, some minor shadowing can be expected from the bull bar and other accessories. This is more noticeable on HID equipped models, however it does not affect the headlight performance or compliance with ADRs. ARB recommends fitting the Sahara style bull bar to VX, ZR and Kakadu models as these models have HID lights.

ZR and Kakadu models can also have an optional centre grille located camera. This camera will exhibit obstructed vision from the bull bar and more so if driving lights are fitted. If a WARN winch is to be fitted, ARB suggest that the control box is relocated directly onto motor of winch (top of control box facing rearwards), with remote winch operation control in place. The WARN remote kits are part number W76080.

The Radar for anti collision system option in Kakadu and ZR is also located in the grille badge. Structures forward of this device may affect the operation of this device.

When ordering bar, if ARB Fog Lights are required, add:

- P# 6821201 ARB Fog Light Kit (includes lights, tails with bullet connections, fasteners and instructions)
- For vehicles without OEM fog lamp provision only add P#MD02 Loom kit, P#180215 Switch cap for Fog Light, and P#180209 Switch Base

Note: Sahara bars are supplied as base bumpers plus relevant buffer kit and/or polished alloy tube.

- P# 5100020 Buffer set with 76mmDia hole to suit centre tube.
- P# 5100030 Buffer set blank (No centre tube)
- P# 5121010 Centre Tube

**Update Electronic Price book:** Yes

**To be included on [www.sellarb.com.au](http://www.sellarb.com.au) :** Yes

**Availability Date:** Production has commenced on the Bull bar and Winch bar. The Combination bar pilot run starts this week and production will follow. Sahara bar still in final development.

**Note:** Prices are East Coast Capital city retail including GST. For Distributor Prices and Regional Retail Prices contact your State office.
